

Foresters and Natural Resource Professionals Serving Benzie, Grand Traverse and Leelanau Conservation Districts

(Updated 10-2020)

Often forest landowners would benefit from a level of professional assistance that is not funded by the Forestry Assistance Program. Examples of this are: the writing of a forest or wildlife management plan, setting up a timber sale, or conducting timber inventories and appraisals. To assist landowners who desire that level of technical assistance, we have compiled a listing of foresters and other natural resource professionals with a minimum four-year degree from an accredited university. Qualified professionals may be self-employed or procure timber for a forest products company. Their fee structures vary.
